ALBERT L. NORRIS, M. D.

If thou art borrow'd by a friend,
Right welcome shall he be,
To read, to study, not to lend,
But to return to me.

Not that imparted knowledge doth
Diminish learning's store,
But books, I find, if often lent,
Return to me no more.

Read slowly, pause frequently, think seriously, keep cleanly, return duly,
with the corners of the leaves not turned down.

Chilson's Patent Cone Furnaces, AND DOUBLE OVEN COOKING RANGES.

CHILSON'S CONE FURNACE. (Patented in America, England, and France.)

This Furnace is now in such general use, and its reputation being so well and favorably established, renders it needless to particularize here its many superior advantages for warming buildings over any other known plan. Sizes suitable for warming all classes of private or public buildings, and for setting either in Brick Work or as Portables.

A GOLD MEDAL was awarded to this celebrated Furnace at a recent Fair of the Massachusetts Charitable Mechanic Association, and the only gold medal ever awarded to any Furnace in Massachusetts.

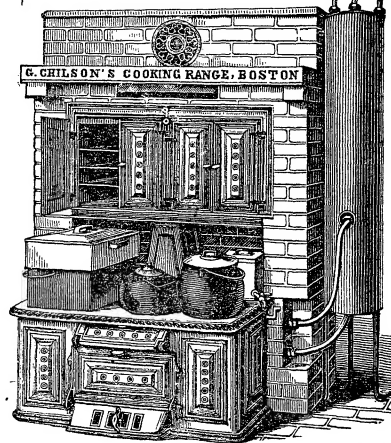

IN PORTABLE CASINGS.

Combines the most important improvements ever made in Cooking Stoves. This statement is fully confirmed by the large number of testimonials received from those who have used these Stoves the past season, and five minutes examination of the Stove itself will further prove all that is claimed for it.

Sizes suited to all practical purposes, from that of the smallest family to the largest class of hotels with or without Water Backs, Extension Tops, Hot Closets, Reservoirs, &c., and fitted for either Coal or Wood. Chilson's new Parlor and Store Stoves, Registers, Ventilators, Frame Grates, &c., constantly on hand, and for sale at the Subscriber's Store, 99 and 101 Blackstone Street, Boston, or at his Foundry in Mansfield, Mass.

CHILSON'S PATENT ELEVATED DOUBLE OVEN COOKING RANGE.

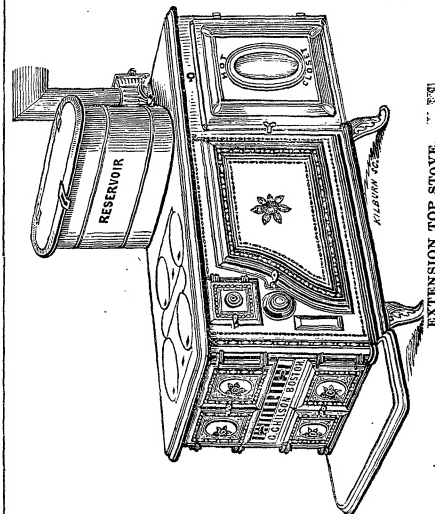

This celebrated Range has become an INDISPENSABLE FIXTURE in all well regulated Kitchens.

It is truly the "COOK'S FAVORITE," as can be proved by the many thousands of TESTIMONIALS received.

Sizes in variety, for Dwellings, Hotels, &c., with or without Water-Backs for Bath Boilers and other washing purposes; also, HOT CLOSETS and HOT-AIR FIXTURES, for heating additional rooms when desired. No Housekeeper will long use any other plan of Cooking Range after an examination of this.

P R E F A C E .

WE take pleasure in presenting the FIFTEENTH NUMBER of the CAMBRIDGE CITY DIRECTORY to the Public. No expense has been spared to furnish such a book as would be a credit to ourselves as well as to the City.

The City has been thoroughly canvassed by competent agents, and the book is compiled on an improved plan, which cannot fail to find favor with all those who may have occasion to use it.

The book is printed with new type, on extra paper, and bound in a handsome and substantial manner, and we do not hesitate to say it cannot be excelled for style and correctness by any city directory in the country.

We would especially call attention to our ADVERTISING DEPARTMENT. It contains the business cards of many of the first-class merchants and manufacturers of CAMBRIDGE and Vicinity.

The following figures show the large increase of names over those in the previous volume :

Names in Directory of 1868,	8,624
“ “ “ “ 1867,	7,580
Increase,	1,044

Many thanks are due to all who have aided us in any way in our arduous duties, and especially to the numerous patrons of the work.

Respectfully,

DUDLEY & GREENOUGH.

The "Peerless,"

The Best Cooking Stove ever made for Coal or Wood,

With or without Extension Top. Nos. 7½, 8, 8½, and 9.

The "PEERLESS" has all the advantages of the popular Stoves in use, together with such NEW FEATURES as justify the manufacturers in calling it the BEST COOKING STOVE in the market. It is the "PEERLESS," because it is superior to all other Cooking Stoves, in Economy, Simplicity, Cleanliness, Baking, Roasting, and Beauty. 1st. ECONOMY. A patented method of heating the air and conveying it through the oven saves from twenty to thirty per cent. of fuel. 2d. SIMPLICITY. It is easily managed. The fire can be perfectly controlled, and kept through an entire season without rekindling. 3d. CLEANLINESS. No dust escapes while shaking or dumping the grate. 4th. BAKING. Its large oven, where-in all parts are of equal temperature, bakes as evenly as a brick oven, and that without turning the article. It bakes quickly. 5th. ROASTING. A current of hot air constantly passing through the oven, so thoroughly ventilates it that it roasts as well as a Tin Kitchen. 6th. BEAUTY. Made of the best iron, it will not crack. Well moulded artistically designed, and smoothly cast, it is the most beautiful, as well as the most serviceable Stove in the market. Each Stove is WARRANTED to be and to do all that is claimed for it. In all the requisites of a first-class Cook Stove, the "Peerless," as its name indicates, has no equal in the market.

Stewart's Parlor Stove,

The most Economical Stove in use.

It can be so regulated, as to give any degree of heat required. The fire may be continued from one to three days without replenishing. It is beautiful in design, and finished in the most perfect manner; has given universal satisfaction, and is equally appropriate for the Office or Store as the Parlor. With proper management, the fire continues through the entire season without once going out.

The Model Furnace,

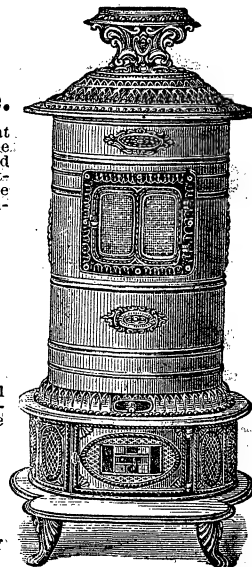

MANUFACTURED BY THE
BARSTOW STOVE COMPANY,
PROVIDENCE, R.I.

All persons in want of Furnaces are requested to call and examine this Furnace, which possesses many advantages over all others; and is decidedly the best in the market.

DAY & COLLINS,

MANUFACTURERS OF

HYDRAULIC CEMENT

PIPE.

Having secured the right, under Knight's Patent, and commenced the
Manufacture of

3, 4, 5, 6, 9, 12, 15, 18, and 24 Inch Bore,

OF

DRAIN, SEWER, AND CULVERT PIPE.

We are prepared to furnish all the sizes, with every style of connection and
branch, together with STENCH TRAPS, CESS-POOLS, &c., &c.

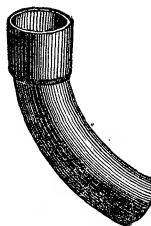

In bringing this Pipe before the public, we are confident that we are
offering the most valuable article now known for

HOUSE, STREET, AND RAILROAD DRAINAGE.

Hydraulic Cement, and Concrete formed with
it, is already assuming its proper rank in construction,
as it did in the palmy days of ROMAN history.
and is sure to supersede all unreliable substitutes,
which have too long been in use.

This Pipe will stand the pressure of heavy railroad
embankments, for which it has been used
with perfect success; will stand the most severe
tests of acids; will improve in strength with age;
and is more perfect in interior finish than any other
pipe made, and lower in price.

The superior form, finish, and quality have elicited the highest
approval of various Hydraulic Engineers.

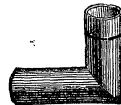

It is largely used for Sewerage purposes in Brooklyn; Central Park,
New York; Washington, D.C.; Navy Yard at Brooklyn; Jersey City,
Albany, Rochester, Buffalo, N.Y.; Hartford, New Haven, Conn.; Springfield,
Worcester, Lowell, Mass.; and numerous other places, giving universal
satisfaction.

ELASTIC SLAT ATTACHMENT,

Patented Jan. 22, 1867.

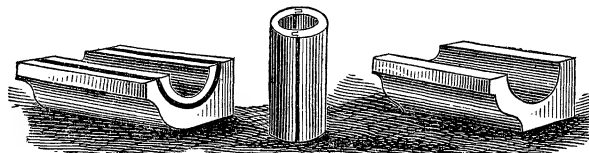

This bed has two sets of Springs, upon an entirely new principle, one at the end, and another lengthwise, beneath the slat, each acting independently of the other, affording great elasticity and strength, with no possibility of the slat becoming permanently bent. The End Springs are so adjusted as to give a compensating action when an unusual weight is placed upon them; and being made of Brass, the bedding cannot be soiled by rust.

It is Noiseless, never gets out of order; and can be used with a single mattress. It can be packed in a small bundle for transportation.

Patented July 27, 1866.
